Deliver highest quality material data and information

Suppliers
Connect and collaborate 24/7

Embrace sustainability and circularity.
We believe in maximizing resources while reducing waste and time to market.
Track every material and put this into practice.
We seek out – and verify – suppliers who embrace this approach.

Privacy, security, and confidentiality.
Have complete visibility and control processes, with no risk of external access from unknown parties. And conduct business with complete confidentiality, knowing that every relationship will remain secure.

Weev is your digital trade show that never ends.
Create a beautiful, highly-organized digital showcase that's visible to brands all over the world. Engage with interested buyers and get real-time, measurable feedback about how your products are performing. With a modern, digital approach, you can make more informed decisions, optimize production planning, and instantly share your latest innovations.

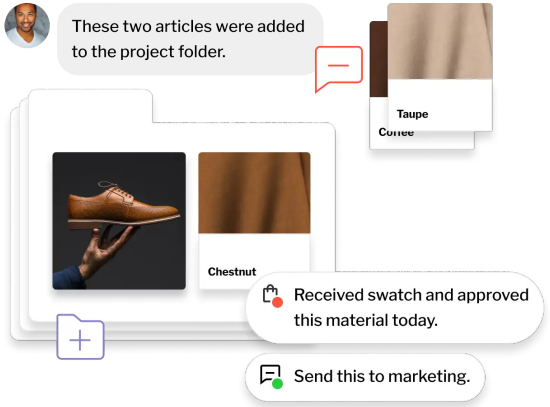
Weev

Digitize with Humanity by Making the Complex Simple

Finally, a digital solution for the footwear creation process.

Weev connects brands and suppliers on a shared platform to make the creation process faster, more transparent, and more sustainable.

The Weev platform will optimize the way you take footwear from concept to reality. With its robust database, best-in-class 3D data and visualization tools, and integrated collaboration capabilities, Weev connects and supports the entire material supply chain.

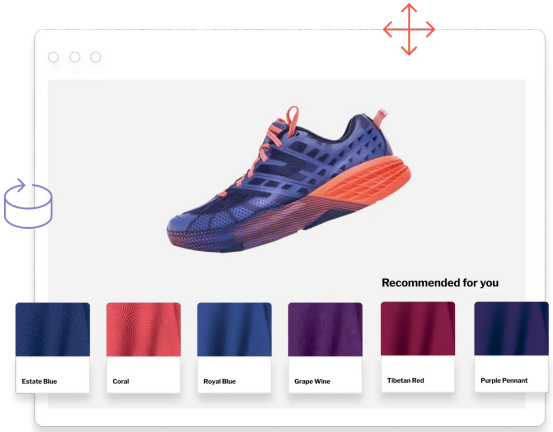


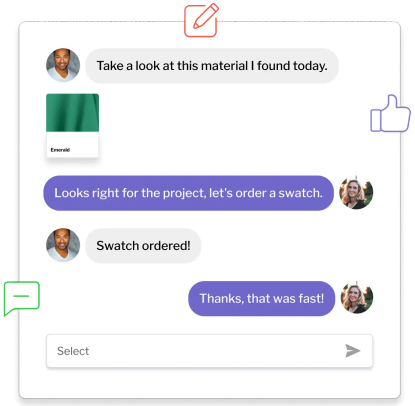
CONTROL WITH CONFIDENCE

Establish digital processes that work best for your team.
Create projects with countless/specific folders, files, materials, and boards. Organize with flexibility, control permissions, and keep track of all project activity.

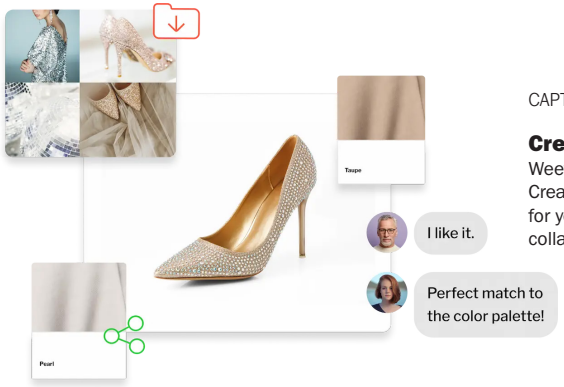
GET INSPIRED

Meet your new hub for research and inspiration.
See the latest innovations from your suppliers, and discover new ones. Compare materials with complete transparency — leaving no detail undisclosed. And use 2D and 3D tools to envision your creations





Communicate more efficiently across the value chain.
Collaborate constantly and selectively through comments and messaging — with both your internal team and your suppliers. Easily communicate about any materials or ongoing projects.



CAPTURE YOUR VISION

Create and organize mood boards collaboratively.
Weev's mood board builder lets you add inspiration from anywhere. Create as many concepts as you want with any file types that work for your process. Showcase your vision, and invite others to collaborate in real time.

Developers
Close the gap between ideation and feasibility. Find sustainable materials and review comprehensive technical details to decide if they're suitable for your specific project.
